# Visiting the Ark in Kentucky

**510 feet long and 50 feet tall and 85 feet wide & 3.1 million board feet**

**↑ A scale model of the interior of the Ark**

**During Study Break, we drove to Williams Town, Kentucky to visit the Ark Encounter, a full size re-creation of Noah's Ark. It was overwhelming to see the size and contemplate the task God empowered Noah to accomplish, especially when you consider 8 people had to care for all those animals. Truly, God did it, but as always, He chose to accomplish this great task through a man and his family. I also remembered that whether big or small God is the one who calls and empowers us daily in everything we do.**
